

## 2007 - Another successful Year for Flux A/S

Asnaes, Denmark February 2008

The 2007 annual report has just been completed showing that 2007 has been yet another successful year for Flux A/S.

The year-end result is positive but affected by the significant investment made in organisation and equipment due to tripling of the space manufacturing capacity.

The positive result will be invested in further developments of organisation and markets.

Flux continues the positive trend with significant growth in all business areas.
