

# Flux Expand Quality Organisation

**Asnaes, Denmark March 2008**

Flux Quality organisation has been strengthened by an additional Quality Engineer.

Michael Simpson has been employed as a Quality Engineer as from March 1<sup>st</sup> and will form part of the Flux Quality team.

Michael Simpson will be responsible for verification of Space manufacturing documentation and issuing of Certificates of Conformity. Michael will also participate in the development of the Space Setup.

Michael Simpson has a configuration background and has more than 7 years of experience in space business.

Michael Simpson, Q-Engineer
